

STAR PARTY 2010

Glitter and bling! Saturn is the second largest planet in our solar system. It has seven thin, flat rings, which are made up of ice particles that revolve around the planet. Its gleaming rings make Saturn one of the most beautiful objects in the solar system.

Evergreen Space Museum open until 9 p.m.
Cosmo Café open until 8 p.m.
Have dinner before the Star Party activities or enjoy an ice cream treat.
